OPERATING INSTRUCTIONS

1. Ensure that the cable length specified allows a minimum of 3 wraps of cable will remain on the drum at all times (This anchors the cable onto the drum). NEVER fully extend the cable when under load.
2. Bushes / bearings should be oiled frequently.
3. Do not use as a load restraining device. Restrain load by other means (eg. Safety chain).
4. Not designed for lifting applications. (See our range of Brake Winches available for lifting)
5. Do not use for the movement of humans.
